EXAMINER'S AMENDMENT

This action is supplemental to the previous Notice of Allowability and corrects that Notice of Allowability with regard to claim 27.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sam K. Tahmassebi on February 5, 2004.

The application has been amended as follows:

Claim 27 was replaced with the following claim:

27. An isolated nucleic acid comprising:
- (a) the nucleic acid sequence shown in Figure 3 (SEQ ID NO:6);
 - (b) the full-length coding sequence of the nucleic acid sequence shown in Figure 3 (SEQ ID NO:6); or
 - (c) the full-length coding sequence of the CDNA deposited under ATCC accession number 203661.

2. The following is an examiner's statement of reasons for allowance: The claims are now drawn to specific DNA sequences which have the utility of overexpression in cancer cells as noted in the declaration and which are limited to the specific sequences and do not include the "encoding" language.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
